**JOURNEY
NURSING
SERVICES**

JourneyNursingServices.com

*Making patients the center
of their healthcare Journey.*

SKILLED NURSING SERVICES:

Includes nursing shifts and visits to meet medical needs and assessments. Nurses complete tasks such as: assessment, coordinating care with medical providers to meet health goals, completing wound care, providing intervenors fluids, filling medication sets, and more.

NURSE DELEGATION:

A requirement in Washington State that allows Caregivers to work above their scope of practice for stable patients under the monitoring of a Registered Nurse (RN) in certain community settings. The RN provides education on how to safely perform a patient specific task and the caregiver is able to complete that care in the RN's absence. The nurse reviews the skills of the caregiver and completes a patient assessment every 90 days, more frequently if necessary.

LONG TERM CARE ASSESSMENTS:

Placement assessments required for Adult Family Homes and Long-Term Care Facilities.

SERVICES

CAREGIVING:

Assisting with the daily needs of patients in community settings. Assisting with Activities of Daily Living (ADLs): personal care needs, bathing, grooming, dressing, toileting, and exercise. Basic food preparation, medication reminders and assistance, shopping, housekeeping, laundry, medical appointments, and other errands.

SPECIALTIES IN CAREGIVING:

- Hospice
- Dementia Care/Alzheimer's
- Spinal Cord Injury
- Companion Care
- Diabetic Care
- Live-In Care
- Respite Care
